1	<p>Page No.41 Section VII - Scope of Work and Technical Specifications, under detailed scope of work, point no. g</p> <p>Integration of 2 Nos of existing IP cameras (installed inside lift) to the proposed CCTV system is in the scope of the vendor.</p>	<p>Kindly share the existing make and Model no of the currently installed camera to help us ensure compatibility and compliance with the tender requirements.</p>	<p>Hikvision DS - 2CD2123G2-IU 2.8mm</p>
2	<p>Page No.43 Section VII - Scope of Work and Technical Specifications, Point No.6 & Page no.47 Section VIII - Quality Control Requirements, Point No.2 for</p> <p>32 Channel NVR, under system Interface, Control mode- Mouse, Web Client and Mobile Client</p>	<p>As per the tender requirement, the system is to be operable through Control Mode Mouse, Web Client, and Mobile Client. However, we propose the use of a Desktop-Based Application due to its superior security and reliability features. For security purposes, Desktop Application is better as it runs within a secured local network and is less exposed to internet-based threats. It provides stronger access control and reduced vulnerability compared to a Web Client, which depends on browser and online security layers. we kindly request acceptance of our Desktop-Based Application as a more secure and robust alternative in compliance with the tender's functional requirements.</p>	<p>As per tender</p>
