

### **MD's Message on the occasion of Republic Day – 26th January 2020**

Dear colleagues, members of CISF, family members and others,

On the eve of our 71st Republic Day, my warmest greetings to all of you.

I convey my special greetings to all the members of our CISF who guard our Company. I also compliment every employees of BNPM for contributing to build this Company, a nation-building exercise did it together.

26th January is a very significant date in our nation's calendar, when we celebrate free India as a Republic based on the ideology of justice and equality.

All of us have a responsibility to ask, "What I can give to my country?". This will reflect that the nation is on the path of positive growth."

Today, our Company has operationalised two lines of strategic currency paper production with a state-of-the-art technology. All of us can be proud of the achievement of this Company and contribution to our Nation. The import of currency paper has been stopped and there is a very good foreign exchange savings to our Government.

If we perform in an integrated way with the policies of Govt. of India, with transparency, I visualise that our company along with its all employees will prosper.

We also have Corporate Social Responsibility towards the society. To make sure that BNPM also participate in ensuring prosperity in our country, our Company has undertaken various measures to help Government of Karnataka and the society in social, economic, and human development, in and around Mysore. I am sure that these small initiatives of BNPM will contribute for a peaceful, secure, happy and prosperous society.

Dear friends, there are many more areas in which citizens can participate towards the national development movement.

Our Armed Forces and Paramilitary Forces, day and night, are awake guarding our borders on the land, in the air and at sea and remain vigilant to counter any threat and facilitate unhindered progress of national development. We appreciate their commitment and devotion to duty of these great personnel of our Armed Forces. Many persons from these forces have laid down their lives while protecting the nation, the flag and our people. **We salute them all.**

Developed India is a dream of all of us. Every one of us has a role to play. It will be a reality if everyone asks themselves "What I can give to this country". The attitude of giving by every citizen will be a big factor for the whole nation leading to fast development.

My dear citizens, let me once again wish you all a very purposeful and happy Republic Day.

May God bless you all.

Jai Hind.
